Resilion K30A

Product Overview

Integrated active rehabilitation training equipment for recovering of knee joint exercise, muscular strength measurement and muscle reconstruction

Main Function

- Isokinetic rehabilitation exercise for patients with sarcopenia and surgery
- Multimodal comprising of Isokinetic, Isotonic, Isometric, CPM functions
- ROM measurement and isokinetic motion test
- Graphic analysis of motion
- Easy left/right switching
- User registration, exercise data history management and print out

Specification

Voltage	100-240V
Frequency	50/60Hz
Max. Power Consumption	700VA
Dimension (W x D x H)	1113mm (W) x 1300mm (D) x 1275mm (H)
Weight	80Kg
Range of Motion (ROM)	-5° ~ 120°
Exercise Mode	CPM / Isokinetic / Isotonic / Isometric
Degree of Freedom (DOF)	1 DOF

Picture

Specification is subject to change without notice.
